EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 1, line 6, the phrase –, said first and second members having non-planar outer surfaces– has been inserted between “with” and the semicolon; in claim 14, line 5, the phrase –, said members having non-planar outer surfaces– has been inserted between “them” and the semicolon; on page 3, line 7, of the specification, “FIG. 2 is a section view” has been changed to –FIGS. 2-1 and 2-2 are section views–; on page 4, line 28 (as amended 8 May 2007), “FIG. 2” has been changed to –FIGS. 2-1, 2-2–.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art does not disclose a pet toy having a first non-planer concave molded member with a first peripheral edge and first arcuate notch, a second non-planar concave member with a second peripheral edge and second arcuate notch; the two concave members defining between them a treat-retaining cavity, and a fastener extending through the cavity and fastening the first member to the second member such that the peripheral edges are spaced apart. The prior art patent to Alvarez (US 3,704,539) discloses a device for holding a poison bait tablet or other mass. The device includes a top cover 10 having a concave

underside, a bottom cover 20 with a concave interior surface, a fastener 22 passing through a central cavity formed by the covers 10, 20 and engaging an annular recess. Radial wedges 10', 20' on the facing surfaces of the covers extend outwardly towards the cover peripheries, but terminate short of the peripheries so that the portion of each cover between the wedge end and the cover periphery could be construed as a kind of notch. However, the outer surface of cover 20 of Alvarez is planar to permit it to be secured to a flat surface, and it would not have been obvious to one skilled in the art to cause it to be anything but planar.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

This case is being passed to issue with allowed claims 1, 2, 4-7, 13, 8-12, 23, 14-18, 24, renumbered as claims 1-19.
